

SCOUTS MUST LEAD IDEAL LIVES

Promotion To Higher Ranks Must Be Earned By Merit

For the benefit of parents who are thinking of the advisability of their boys becoming Scouts we find the following outline of rules and objects of the organization.

Boys between the ages of twelve and eighteen years are eligible to membership in the troops, and there are three grades of scouts, namely, tenderfoot, second scout, and first scout, through which the boys are advanced as they show proficiency in the exercises set for scouts.

A boy becomes a tenderfoot when he pledges himself to do his duty to his God and his country, to help other people at all times and to obey the scout laws. Promotion to the higher ranks must be earned. To rise to a second class scout the boy must learn the elementary points of first aid to the injured and bandaging, must know the principles at least of some code of signaling, must be able to lay and light a campfire, must be able to cook a quarter of a pound of meat and two potatoes in a camp kettle, must run or walk a mile in twelve minutes, and must have a dollar at least on deposit in a savings bank. Before he is made a full fledged scout he must have bettered this record considerably in all these points and besides must have done a fifty yard swimming stunt, walked fifteen miles alone and written a description of the trip, done some piece of skilled work with an edged tool and above all must have enlisted some other boy as a tenderfoot. After becoming a full fledged scout, the boy can aspire to the position of patrol leader and other distinctions in the organization.

Scout Laws.
The scout motto is "Be Prepared," and the scout laws are as follows:

How to become a tenderfoot—Know the scout law, the signs and salutes. 2. Know the history of the Stars and Stripes. 3. Tie four standard knots, slip, reef bowline, fisherman's weaver's binder, anchor bend, double half hitch. 4. Take the Scouts' oath.

The Scout Law:

1. A Scout's honor is to be trusted. If a scout says, "On my honor it is so" that means that it is so just as if he had taken a most solemn oath. The penalty for breaking a scout's honor may be to hand over his scout badge, and cease to be a scout.

2. A scout is loyal to his parents, to his officers, his country, and his employers. He must stick to them through thick and thin.

3. A scout's duty is to be useful and to help others. And he is to do his duty before anything else, even though he gives up his own pleasure, or comfort, or safety. He tries his best to do a good turn to somebody every day.

4. A scout is a friend to all and a brother to every other scout. A scout is never a snob. He never looks down on another because he is poor or resents another because he is rich.

5. A scout is courteous. That is he is polite to all, especially to women and children, old people, invalids, and cripples. He must not take any reward for being helpful and courteous.

6. A scout is a friend to animals. He avoids giving pain and killing. Killing for food is allowable.

7. A scout obeys orders of his parents, patrol leaders, or scoutmaster without question. He carries out every order at once and states any reason against it afterward.

8. A scout smiles and looks pleasant under all circumstances. Scouts never grumble at hardships, nor whine at each other, nor swear when out. A scout smiles in time of danger, in the face of pain and disappointment.

9. A scout is thrifty. He saves every penny he can, and puts it into the bank, so that he may keep himself when out of work, and thus not make himself a burden to others, and that he may have money to help others.

NEW DORMITORY OPENED

Superior Normal School Takes Initiative In State.

Monday the new dormitory at the Superior Normal school was formally opened. Students at the school have been rooming at the dormitory for some days.

The dormitory is the first of its kind to be erected in connection with a Wisconsin normal school, and the success or failure of the venture here will determine to a large extent whether dormitories shall be built for other schools.

The building and its furnishings cost the state \$65,000. It is built to accommodate seventy-five girls. Meals for twenty-five students besides the regular occupants can be furnished. The dormitory will be in charge of a matron and six maids under the supervision of Miss Grace Geary, a member of the school faculty.

The erection of the dormitory was found necessary on account of the difficulty experienced by the students in securing rooming and boarding places.

ONEIDA FARMERS CAN SUCCEED

Home Man Tells What Can Be Accomplished in North- ern Wisconsin.

The following article sent out by C. P. Crosby of this city, proves it is not necessary to leave Oneida county to do successful farming. It proves more, that less capital is necessary to do business in agriculture in this region than in the fairy apple belts of the West. Instead of hunting for paradise just get a piece of land in Oneida county and do business.

Wisconsin Lands.
It is all right to tell about apple orchards and show a splendid display of fruit, but the average man eats more potatoes than apples, and is more interested in getting enough of the necessities of life than the luxuries.

A farm one mile from Rhinelander, had 10 acres of potatoes in 1910, "the dry year" and the owner shipped 3000 bushels off that patch and had enough left for his family and next year's seed. He got 35 cts. for them, and this amounted to \$1065.00 or \$105.00 per acre.

Similar land can be bought of me for about \$10.00 per acre, for investment, or for actual settlers.

It does not take 10 years to get the fruit to bearing, like the apple orchard, either.

TO RUSH HOLIDAY MAIL.

Special arrangements have been made by Postmaster General Hitchcock for the rapid transmission of mail intended for delivery abroad by Christmas day. The steamer Philadelphia, originally scheduled to sail from New York for Plymouth, Cherbourg and Southampton at 10 a. m. on Saturday, Dec. 15, will leave New York at the same time the preceding day. Likewise the Mauretania, scheduled to depart on Dec. 21, now will sail at 6 p. m. on Saturday, Dec. 17. This will make it necessary for persons in any part of the United States to mail their letters or packages for the United Kingdom and other parts of Europe early enough for them to reach New York on Friday, Dec. 16, or on Saturday, Dec. 17. Such mail, it is expected, will be landed in time for delivery in Great Britain and Ireland as well as most of the continent by Christmas day.

MORSE'S EXPENSES \$2,154.

That's What It Cost 10th District Congressman to Be Re-Elected.

Madison, Wis., Nov. 25.—Congressman Elmer A. Morse of Antigo, re-elected to represent the Tenth congressional district, has filed a statement in the office of secretary of state declaring that he spent \$2,154.89 for campaign purposes, \$1,784.93 in the primary and \$369.91 in the general election campaign.

Lynn Thompson, Rhinelander, Social Democratic candidate for congressman in the Tenth district spent \$14.

REPORT GIVEN BY COUNTY SUPT.

Recommends Trained Teachers and Better Conditions for Rural Schools

To the Honorable County Board of Oneida County: Gentlemen:—

The law requires that at this meeting I set forth the condition of the schools of the County and make such recommendations as will be of greatest value to them in the future. It is not my aim to put forth any elaborate discussion on the theory of education but to give you in plain language the conditions my visits have revealed and make suggestions, as it seems to me, that will be of most benefit.

One astonishing fact is that not so many children were in attendance in the year closing June 30, 1910 as in the year closing June 30, 1909.

In 1910, 1447 children were registered in the schools of the county (outside the city of Rhinelander) with a daily average of 916.5 whereas in 1909, 1472 were registered with a daily average of 937.33. This is not due to a decrease in the number of children of school age living within the county, for in 1910, there were 1923 between the ages of 4 and 20 whereas there were 1881 in 1909, but it is due to children failing to comply with the law.

If truancy is the real reason for the shrinkage, it will be overcome this school year, as there is a closer co-operation between teachers and county superintendent and between the county superintendent and the State Deputy Factory Inspector. In other words your superintendent knows conditions better than he did a year ago and is trying to take advantage of this fact in the improvement of the schools.

In contrast with previous years, the county School Board Convention was held before the opening of the schools in September instead of later in the school year.

The faithful school officers who are always in attendance at these meetings recommended this change from late in the school year to this time that the school officers could take advantage of the ideas gained at the convention. And their good judgment in the matter has been demonstrated a thousand fold. We regret to say in two or three instances the school board members have failed to attend these meetings; they are too wise to comply with the law, consequently their schools lose much from the loss of discussion and valuable suggestions of these meetings.

During the school year, the County Superintendent has visited all of the schools once and many a second time, jehexclading in this statement a single school taught but a few weeks and located many miles out of the range of the other schools of the county.) In plain figures the County Superintendent has made 114 visits during the past year. It is painful to think of the wide range of conditions he has found in the various schools during these visits. Some towns do everything in their power to make the school property attractive and equip the schools where others do as little as possible to improve school conditions. If you wish to see a beautiful building well equipped, go to the Town of Enterprise. The Town of Pelican has a most tasty new school building but it is not equipped as well as the one in the Town of Enterprise. Both of these buildings will give you plenty of assurance that it pays to secure the services of a good architect if you are to have an artistic, commodious building.

In almost all the schools in this new country little has been done in the way of beautifying the school grounds which is to be greatly regretted. Children at school form their ideals and if we wish them to get high ideals as to what surroundings should be, they should see them and live among them.

Let us improve the school grounds. This is the next step; it is certain.

STRUCK BY STAKE

Paper Mill Employee Meets Death While Unloading Car.

Joseph Calbot, a laborer in the paper mill employ received injuries yesterday from which he soon died. He was unloading pulp wood in the yards when a stake flew back striking him above the temple rendering him unconscious. He was immediately taken to the hospital where he expired.

Calbot was 46 years of age and leaves a wife and one child. The funeral will take place from the house Saturday morning. He was a Modern Woodman and the lodge has called its members to be present in a body.

WILL REMOVE TO WASHINGTON.

W. H. Trumbull is busy packing his household effects preparatory to shipping them to North Yakima, Wash., the last of this week, where Mr. Trumbull and family contemplate making their future home. Mr. Trumbull has recently returned from a prospecting tour through parts of Washington and British Columbia, and is very enthusiastic over the future prospects of the Yakima Valley as a fruit growing region and from a business standpoint, has decided to cast his lot among the people of that locality and grow up with the country. The Yakima Valley is said to be the center of the apple growing industry of the great northwest and as such has a great future.

Mr. Trumbull and family will remain in the city for about ten days after the shipment of their goods when they will depart for their new home.

BOYS' MAKE DOCTOR DANCE

Impersonates Indian Chief— Elaborate Dinner Served In His Honor.

Dr. J. T. Elliott played a new role for the edification of his friends and many by standers last Thursday evening. The genial doctor has always been ready to be a leader in pranks on his friends but last week he was given a dose of his own medicine. The doctor had recently returned from his wedding trip and as days went by, thought of course that the boys had passed him by gently, but not such clear sailing for the doctor.

Thursday evening, he was captured, shackled, handcuffed and taken to Gilbert Forsythe's barber shop where he was dressed and decorated to represent "Chief 'Snow Snake'" of Canada. With the doctor's nationality the make up was very appropriate that he should represent a chief from Canada. After fully decorating the doctor with war paint, and feathers, still hand cuffed and shackled, with rings in his nose and ears he was lead around and exhibited, a drum corps ahead and a long march following in the wake. Charles Bell who had charge of the victim gave short speeches at various places, telling how this savage had been caught in the wilds of Canada but now was so tame that he would eat out of a woman's hand. Surely, Charles did justice to his subject. In front of the opera house the M. D. was chained to one of the iron posts where he was required to dance as well as he could with his shackles on and finally red light was placed around him as though burned to the stake. After this act about forty stags led their captive to the Commercial House where an elaborate four course turkey dinner was served which the participants say was "the finest."

After the dinner, toasts were given by A. S. Ruggles of Hurley, Willard Fisher and Carl Krueger of this city. E. C. Sturdevant, and Carl Kincaid furnished the vocal selections, Paul Gaston and Richard White were instrumental actors. At the close the doctor agreed that he had been fully rewarded for all his misdeeds in the past and the entertainment and banquet were pronounced a great success.

Paul Gaston, the genial manager of the Rapids House spent Tuesday on business at McNaughton.

FIRE DAMAGES GREEN HOUSE

Peter Phillip Has Heavy Loss—No Insurance

The green houses owned by Peter Phillip, North Brown St., were partially destroyed by fire between the hours of twelve and one o'clock this morning. The alarm was given by the night watchman who saw flames issuing from the rear of the green houses. In spite of strenuous efforts the back portion of both green houses and the room where the heating plant was situated are a mass of charred ruins and all of the plants except in the front part are frozen. At an early hour friends were doing what they could to screen off certain portions of the two glass covered buildings in an effort to save what plants were not beyond help. It was a sorry looking sight, to see the hundreds of frozen slips and plants, that yesterday gave such promise of beauty, but a still sadder sight is the hopelessness of Mr. Phillip, who is too stunned to even estimate his loss as the damage caused by the fire will be an utter loss, there being no insurance on the two green houses.

Mr. Phillip travels in hard luck this fall. Only a few weeks ago Mrs. Phillip was taken to St. Mary's Hospital where she is at the present time, convalescing from a serious run of pneumonia. Our enterprising green house man has the sympathy of the community in this, his second misfortune.

BOY SCOUTS OF AMERICA.

The committee of five which was authorized by the meeting of November 23rd, consists of J. H. Morgan, John Swedberg, W. C. Orr, Matt Stapleton, and E. O. Brown. They have decided to call a meeting at 8:00 P. M. Wednesday, December 7th, at the council room.

This meeting should be a representative one and the following men should all be present. Mayor and members of the Common Council, the members of the school board and the Superintendent of schools and his assistants, representatives of the press, and of all religious or other societies that have anything to do with boys, and all men who are interested in the welfare of the boys of our city.

At this meeting the officers of the Local Council are to be elected, also the Scout Commissioner, who will have general charge of the work in this field, also five men to act with the officers on the Executive Committee. We will then be ready to do practical work.

The reason why the meeting for organization was postponed to December 7th, is that the committee felt that they needed this time to work up a more general interest in the proposed organization.

By order of Committee.

WILL ERECT A WARE HOUSE.

D. Goldberg & Co., the enterprising dealers in flour and feed, are making arrangements for the erection of a flour, feed and grain ware house 20x100 ft., on the Northwestern right of way, permission having already been granted by the company. As soon as final arrangements can be completed, work will begin on the building and be carried forward as rapidly as possible.

At present the store house occupied by this firm is far too small for the successful handling of the business, but with the completion of this ware house their facilities will be greatly augmented and they will be in a position to handle the highest market prices of this city and dispose of the surplus of the lander's business. The firm is a rural friend and will return will reward the lander's business and give them the best.

WOMAN NEXT ON COURSE

Comes Highly Recommended—All Should Hear Her.

Mrs. Bertha Kunz Baker will appear on the Entertainment Course at the Armory, Wednesday evening, Dec. 14. Mrs. Baker is a woman of national reputation as a reader and entertainer and was chosen by the Entertainment Association because they considered her a star attraction. You should hear Mrs. Baker for no better can be had at any price in her line of work. This is the second biggest number on the course this winter.

Why not give the boys and girls a chance to attend the Entertainment Course? No better entertainment or educational advantage can be offered them.

Read the following comments on Mrs. Baker's work.

During more than twenty years' experience in educational work, it has been my good fortune to hear those who have been and are considered the great readers of their day. Mrs. Bertha Kunz Baker, I unhesitatingly pronounce the greatest of all.—Dr. G. R. Benton, President Miami University, Oxford.

The moods of reverence and pure compassion in which "Parsifal" is conceived, were admirably reproduced in Mrs. Baker's voice, which has a remarkable richness and softness. When Mrs. Baker had finished, the audience left the theater uplifted with that mighty religious awe which a complete presentation of the work leaves.—Chicago Record-Herald.

Mrs. Bertha Kunz Baker's rendering of "Cyrano de Bergerac" was beyond question one of the most artistic presentations ever heard in this city. Mrs. Baker is an artist in the fullest and highest sense, who lives the characters she so vividly portrays. As soon as it was learned that Mrs. Baker could spend part of tomorrow in this city, two additional readings were arranged.—San Antonio Express.

MISSIONARY TELLS HIS EXPERIENCE

Holds Attention of Audience During Recital Missionaries Have Thrilling Experiences.

Rev. W. H. Thurston of Grand Rapids, President of the Seventh Day Adventist Conference of Wisconsin was in the city Sunday visiting O. E. Wood and family.

Sunday evening Mr. Thurston occupied the pulpit of the M. E. church, by request of the pastor, and after preaching a short sermon which is up to the subject of missionary work in South America, held the attention of his audience for quarters of an hour, giving an interesting account of his experience as a missionary in the interior of Brazil and where he labored and ships and privations or to spread the natives, picturing the faithful labor of long whippings in some of the country.

At present the store house occupied by this firm is far too small for the successful handling of the business, but with the completion of this ware house their facilities will be greatly augmented and they will be in a position to handle the highest market prices of this city and dispose of the surplus of the lander's business. The firm is a rural friend and will return will reward the lander's business and give them the best.

Because of their sedative influence upon the nerve branches

Dr. Miles' Anti-Pain Pills relieve acute pains of any nature. They are equally effective in neuralgia, rheumatism, sciatica, locomotor ataxia, or the pain due to spinal trouble. Ladies who have periods of suffering find that they not only relieve their distress but their attacks become less severe, and after a time often disappear altogether. The first package will benefit; if not, your druggist will return your money.

GOMPERS CRITICIZES TAFT.

At the thirtieth annual convention of Labor, held in St. Louis two weeks ago, President Gompers condemned President Taft for his successful attempt to defeat the provision of an appropriation bill, passed at the last session, exempting labor unions from the operations of the anti-trust act.

A SAFEGUARD.

Malne began the Democratic sweep. Massachusetts did her full share. Bounded by both of them is New Hampshire, which went Republican. New Hampshire is Insurgent. The others are not. The moral can be picked out of the election almost everywhere. And, by the way, just watch LaFollette in the next Senate. He will fight for all the measures he believes in, and against those which he thinks wrong, and he will be a relief among those who allow their party labels to act as chains.—Collier's Weekly.

Congress opens next week and the next three months must decide what President Taft shall accomplish as the recent election gives the House of Representatives to the democrats. Much talk is already rife as to whether the President will work to carry out the platform of the last national republican convention or be influenced by Cannon and Aldrich and still attempt to punish the Insurgents. If he is guided by the old party leaders we may expect little. It remains to be seen whether Taft is great enough to rise above the influence of these stand patters or not. It now looks as though Taft is an impossibility as a candidate for re-nomination, unless we wish to elect a democrat in 1912, but the next three months may bring radical changes. We will wait and see.

MORSE OPPOSES SHIP SUBSIDIES.

Congressman Morse says: "I am bitterly opposed to the principle of taxing the whole American people for the purpose of enriching a few steamship companies. I believe that the American policy of granting special favors has been carried too far, and that we should rather go in the

opposite direction.

"The Republican party has more of a burden than it can carry now in the tariff bill and I believe that we should rather lighten this burden by reducing some of the indefensible schedules, than add to the burden by passing a bill which will take money out of the public treasury for the purpose of enriching a few to the detriment of the many."

Mr. Morse, now you are moving in the right direction. The people who nominated you agree with these doctrines. Never mind what the Special Interests bunch or their organ say. They opposed you in the primary and voted the Democratic ticket election day.

MEANING OF THANKSGIVING.

We hear much said and see much written on "What Thanksgiving Day means," but fail to hear or see anything more appropriate than what Henry Ward Beecher wrote years ago:

"Thanksgiving Day is the one national festival which turns on home life. It is not a day of ecclesiastical saints. It is not a national anniversary. It is not a day celebrating a religious event. It is a day of Nature. It is a day of Thanksgiving for the year's history. And it must pivot on the household. It is the one great festival of American life that pivots on the household. A typical Thanksgiving dinner represents every thing that has grown in all the summer, fit to make glad the heart of man. It is not a riotous feast. It is a table piled high, among the group of rollicking young and the sober joy of the old, with the treasures of the growing year, accepted with rejoicings and interchange of many festivities as a token of gratitude to Almighty God.

Remember God's bounty in the year. String the pearls of his favor. Hide the dark parts, except so far as they are breaking out in light! Give this one day to thanks, to joy, to gratitude.

DO CHRISTMAS SHOPPING NOW.

Thanksgiving has gone and now we must get ready for Christmas cheer.

There is no surer way of making the Christmas season of good-fellowship a season of needless suffering than by delaying purchases till the last minute. That delay means crowding shops till ventilation is powerless, and forcing clerks and cash girls, shippers and accountants, to a steady drive and unremitting toil which often fills nights as well as days. It means getting no better goods. Now, always the store, large or small, has its Christmas stock in readiness for the buyer weeks before the holiday. If anything, one gets fresher goods by purchasing them well ahead. The man or woman who makes up and bills the list of necessary gifts early is bestowing a Christmas gift upon some unknown fellow being. No Thanksgiving remark that occurs to us has as much practical usefulness as this about the proper use of the time between the November holiday and the one that follows in December. Already our merchants are making every preparation for their Christmas trade. Added clerks are already behind the counters and the merchants can do you much better service than in crowded stores just before the Holidays.

Rhinelander merchants want your trade and will do every thing in their power to give you the best of services with right prices. Patronize them.

FARMER AND HORSE.

Before the horse is awake the farmer gets up, and he retires only after the horse is bedded.

The farmer gives the horse a daily massage; the horse doesn't massage the farmer.

The horse eats leisurely, and eats only the food that suits him best; the farmer can't afford such luxurious habits.

The horse doesn't drink when he is hot and tired. If the farmer

didn't drink when he was hot and tired he wouldn't drink at all.

When a horse gets old his loss is lightened. As the farmer grows old the mortgage grows heavier.

If you work a horse to death some body's liable to have the law on you, but when it comes to working farmers to death—well, there's no closed session for farmers.

If a horse dies you have to pay about a hundred dollars to get another. If a farmer dies, two twenty-five cent ads. will bring you a couple of dozen men looking for a job.

Still, in one way the farmer has it on the horse. When the farmer votes he has sense enough to vote to keep things as they are. On the contrary, if the horse voted, probably his horse-sense would insist on a radical change—a change which would doubtless disturb many of the great and good men whom God has made stage-managers of our present civilization.—Horatio Winslow in Puck.

FOREWARNED.

It is fortunate that the people of the United States have, just at this time, so able and unflinching a champion as Gifford Pinchot to stand between them and the Interior Department. There is enough evidence in the record of the Ballinger-Pinchot investigation to indicate that the public interest in the Cuneleglam claims is still in danger of being sacrificed by Ballinger and his subordinates. There can be no doubt that the Morgan-Guggenheim crowd are making every effort to have this particular group of claims patented without further delay. President Taft can prevent these valuable lands from falling into the possession of the "Morganhelms"—if he will.

Fearing that the Interior Department is about to recommend the Cunningham claims for patent, Mr. Pinchot and his brother, Azoo Pinchot, asked President Taft for the privilege of submitting the facts regarding these claims, in case they are reported favorably.

This privilege was extended by the Executive Office. But the mere submission of a brief by the Pinchots is not enough. It should be given personal consideration by the President. Whatever is then done with these claims, will be done with full knowledge of the facts, or at least with the established facts at hand. The President will not be acting in the dark. His act will be construed as his answer to this plain question: "Shall I favor Special Privilege, or shall I protect the Public Interest?"—LaFollette's Weekly.

Borrowers of Books.

I have not bound the poems yet. I wait till people have done borrowing them. I think I shall get a chain and chain them to my shelves, and people may come and read them at chain's length. For of those who borrow, some read slow, some mean to read, but don't read; and some neither read nor meant to read, but borrow to leave you an opinion of their sagacity. I must do my money borrowing, friends the justice to say that there is nothing of this caprice or wantonness of alienation in them. When they borrow my money they never fail to make use of it.—Charles Lamb.

Herolam.

In the obscurity of retirement, amid the squalid poverty and revolting privations of a hotel, scenes of magnanimity and self-denial are often seen, as much beyond the belief as the practice of the great; a herolam borrowing no support, either from the gaze of the many or the admiration of the few, yet flourishing amidst ruins, and on the confines of the grave; a spectacle as stupendous in the moral world as the falls of the Missouri in the natural; and, like that mighty cataract, doomed to display its grandeur only where there are no eyes to appreciate its magnificence.

Discoveries at Venice.

Some very interesting discoveries have been made in the course of excavation work around the island of Lido, at Venice, where a number of ancient pieces of artillery have been found beneath six feet of mud. The cannons are all in a state of excellent preservation, though it is clear, from their construction, that they must date back to the period almost immediately after the discovery of gunpowder, and it is believed that they will prove of very great artistic and historic value.

Has Fought His Last Duel.

A couple of quarrelsome schoolboys in Paris, aged respectively fourteen and fifteen, fought a duel in the Bois de Boulogne, with sharp foils. Both were wounded, one in the thigh, and the other under the other under the fifth rib. The mother of the elder duelist so "warmed" the lad when he returned home, that his feelings have been severely lacerated, and he says he has fought his last duel.

The Pose.

Photographer (who, for the first time, has taken a great deal of trouble to get his sitter to relax the unnaturally stern expression which men assume under the ordeal, and now prepares for a second exposure)—I shall leave the expression to you this time, sir.—Punch.

REPORT GIVEN BY COUNTY SUPT.

**Recommends Trained Teach-

for Rural Schools**

(Continued from page 1.)

tainly necessary to have attractive
grounds to harmonize with fine build-
ings.

There is constantly a greater de-
mand for trained teachers. One
great reason why high school gradu-
ates, as a rule, do not go out with
a definite idea of what they are to
do as teachers is, because they get
no training at all, along this line in
their high school course. There was
a time when some of the high schools
had a good course in theory and art
of teaching but this has been removed
by law so now we must look to
our training schools for our county
teachers. It is not far ahead when
all country teachers, just starting at
the work, will be required to be gradu-
ates of County Training Schools.

We must depend on our Training
Schools for our rural schools, for the
graduates of the State Normal turn
to the villages and cities for em-
ployment. It is not too much to
say of all the high school graduates
who are getting their first experience
as teachers, that I have visited but
two who are doing satisfactory work
and they are bright energetic young
women who are succeeding in spite
of their many mistakes in methods.

Is it not too much to give up a
whole year of a child's time to let
a young teacher experiment on him
in order to discover her mistakes?

One year ago you provided for a
County Training School which I
believe in the end is going to be of
great value to this county. School
Boards are going to select its gradu-
ates and force those who wish to
teach to take a course within its
walls. In starting this school we
were most fortunate in securing peo-
ple as teachers who have had a broad
experience in the work to be done.
At this point, I insert a report

made to me by the Principal of the
Training School:
Superintendent F. A. Lowell,
Secretary Training School Board,
Rhinelander, Wis.

Dear Sir:—
I have the honor of submitting the
report of the Oneida County Teach-
ers' Training School for the two
months beginning Sept. 12th, 1910.
The school opened in the remodel-
ed old court house on September 12th
with only three students. At pres-
ent we have an enrollment of 13; two
more have signified their intention
of enrolling Monday, November 14th,
and several who are now teaching
fall terms will enroll after Christ-
mas. This enrollment seems small,
but reports of Training Schools in
other counties show that our school
is larger in proportion to population,
than were nearly all the others. This
is true in spite of the summer school
held last summer in this city.
A small library has been started,
which is being cataloged by the
students as a part of their regular
work.

A collection of exhibits of manu-
facturing processes for use in geog-
raphy and language is being rapidly
built up.

The school owns nearly 300 agri-
cultural bulletins and books, many of
which have a direct bearing upon the
conditions met with in this county.
Any resident of the county desiring
agricultural information can have the
use of these books free of charge by
simply writing to the Principal and
asking for the information wanted.

A number of the students are able
to pay their way by assisting in
housework. They are doing this suc-
cessfully, both their housework and
their study being done creditably.

The school has endeavored to be
of use to the teachers now active in
the field. Questions regarding text
books and programs have been an-
swered; a number of schools has
been visited both with and without
the County Superintendent and
some teachers have been given di-
rect aid.

The school has every prospect of
proving a profitable investment for
the benefit of the children of Oneida
county.

Respectfully submitted,

B. MACK DRESDEN.

In order to continue this school
it will be necessary to incorporate in
your present levy \$2700.00 for its
maintenance as was settled a year
ago, when the school was decided up-
on; and we hope, and believe this
levy will be made.

In many instances school officers
of the county are fixing their own
salaries for their services contrary
to law and drawing amounts entirely
out of proportion to services ren-
dered; the fact is, a sub-district
clerk has no right to a salary unless
the voters of his sub-district so vote
it at an annual meeting, and then
not allow him to exceed ten dol-
lars a year.

Too many people who have no inter-
est at heart in the public schools
have become school officers with no
other view than to derive financial
benefit and invariably such people fig-
ure closely in expending money for
the legitimate expenses of the
schools.

To have good schools, the patrons
must have a deep interest in the
educational system and be wide-
awake to the conditions, elect good
officers who will secure teachers ab-
solutely on their merit and then
patrons and school officers must work
as a unit with the teachers for the
best results obtainable. We do not
expect perfect schools, but honesty,
intelligence and vigilance will go a
long way toward improving our coun-
try schools.

Yours truly,

F. A. LOWELL,
County Superintendent.

HUMEROUS ELECTION INCIDENT.

A good joke is being passed a-
round on Mr. Mack, chairman of the
Democratic national committee.

In Mr. Mack's city, Buffalo, the
voting was done by the use of vot-
ing machines. It was Mr. Mack's
first venture in that method of vot-
ing, and by a mischance he pulled
the Republican lever, thereby record-
ing his ballot for the straight Re-
publican ticket. The joke was too
good to keep, and he told his friends
of the error which he made. But it
turns out to be either more or less
of a joke than he supposed, accord-
ing to the point of view, for the
congressional vote in that district is
a tie. If Mr. Mack's vote had been
registered as he meant it to be,
the Democratic candidate would have
been elected. As it is, he must get
the seat, if at all, through a contest
and the friendly interest of a Demo-
cratic House.

Malcolm McEachen of this city is
a brother of the chairman and votes
the same kind of a democratic tick-
et his brother did.

FIGHTING PARSON BREAKS DOWN

**"Kid" Wedge Succumbs To
Great Strain of Overwork
And Exposure**

BY CAROLINE SINGER

Rev. F. R. Wedge, formerly "Kid"
Wedge, welterweight pugilist of Oma-
ha, who has been waging a fight again-
st vice, singlehanded, on the Barbary
Coast, is now battling another kind of
a battle. At Hahnemann hospital,
with the help of nurses and doctors
he is fighting against a nervous break-
down and the cold on his lungs which
keeps him gasping for breath.

"But, I'll get out of this, alright,"
he says with the same optimism with
which he cheers the young men that
he finds in tenderloin dives.

The story of Wedge's illness cannot
be learned from the sick man, whom
pride makes silent. After coming
out of the slums himself, working his
way through Nebraska university by
teaching boxing during the week and
preaching as a student pastor on Sun-
days, he has decided to give his whole
life to helping men threatened by the
same dangers which threatened him.
All that he has had is his salary, not
over-large in these days of expensive
living, with which to feed and clothe
himself and those he has taken in.
He has not been "out with the hat,"
his charity has not been prefaced by
expensive vaudeville productions or
bazaars. When he has given, it has
been of his own life.

His tendency to drop into the Bow-
ery slang of his boyhood, his preaching
of the Gospel of good health as much
as orthodox sermonizing on street cor-
ners has closed the purses of several
hypercritical wealthy people who pro-
mised to aid him. He has made no
complaint, but when the money was
hard to get he confined himself to one
meal a day so that he would have
more to share with the stranger.

A cheap room within hearing of
Pacific St. hurdy-gurdies has been his
home. After the hours of exposure
when he stood at the beginning of the
tenderloin and warned back the young
people who would "see the sights,"
the unheated room was his only refu-
ge. Many clergymen who have been
approached on the subject have advised
that the best way to do is to throw off
the impressions received in the dis-
trict of vice. Each man who has giv-
en such advice has a tiny home circle
of some sort as a counterbalance for
his work. Advice will not pay the
hospital bills of the young chap who
says:

"I will preach to these boys even if
I carry a hoe during the day and have
to do it at night."

There is a secret, sacred to F. R.
Wedge. He has been planning to
marry and establish a home. The
girl is waiting. As fast as his salary
comes it goes again to clothe one of
the men he has succeeded in trans-
forming from common drunks to
honest laborers. The wedding day,
comradeship, which would mean
much to him must always be kept in
the future. The expense of his illness
precipitated by lack of food and warm
enough clothing looks now like a yaw-
ning hole between himself and happi-
ness and his work, which will swell
up his earnings.

His visitors now are cleanly looking
men who tiptoe into the sickroom.
A month ago some of them unkempt
objects, reeled into the open room of
the "Fighting Pastor," who seemed
to have no time for sleeping and eat-
ing.—San Francisco Daily News

Mr. Jacob L. Davis, Galena, Stone county, Mo., writes: "I have been in bad health for thirty-seven years, and after taking twelve bottles of your Peruna I am cured." Mr. C. N. Peterson, 132 South Main St., Council Bluffs, Iowa, writes: "I cannot tell you how much good Peruna has done me. Constant confinement in my store began to tell on my health, and I felt that I was gradually breaking down. I tried several remedies, but obtained no permanent relief until I took Peruna. I felt better immediately, and five bottles restored me to complete health."

A SINCERE RECOMMENDATION.

Mr. D. G. Prosser, Brayo, Allegan Co., Mich., writes: "Two years ago I was badly afflicted with catarrh of the stomach. I had had a run of typhoid fever, was very depleted. I could find nothing I could eat without causing diarrhea and sour stomach. Finally I came to the conclusion that I had catarrh of the stomach and seeing Peruna advertised, began to take it. It helped me soon, and after taking three or four bottles I was entirely cured of stomach trouble, and can now eat anything."

COUNTY BOARD MEETS

Business Moves Slowly. The Apportionment is the Stumbling Block.

The Annual Session of the County Board began Tuesday afternoon. All the members were present.

The most of the regular bills have been allowed at this time and the members of the board are now working on the apportionment.

The committee's report gives Rhineland the same percent that she had a year ago but it is hard to tell whether this will stand or not in the final action of the board. At this meeting the great issue is the apportionment. Every member wishes to go back to his constituents and tell what he has accomplished in the reduction of their taxes. With this problem to handle it is difficult to tell when the meeting will close.

Syrain Tobacco Best. The tobacco generally considered superior to all others is Syrain. It is called Lemakia, from the city of that name, the ancient and renowned port of Laodicea, which to the present day has a not inconsiderable trade. The city lies at the foot of Mt. Lebanon, not far from the spot where the remnants of the patriarchal cedars still grow.

LIBRARY NOTES.

In London and New York one of the great theatrical successes of the year is "The Blue Bird" by Maeterlinck. This play reminds one of Peter Pan, as it is the dramatization of a fairy tale and resembles it in thought and method. The book is in the children's room, and there are also articles in pamphlet form describing the play.

Key—The Century of the Child.—An earnest, thought-provoking arraignment of our social and educational institutions, of woman's ambitions, and the perversion of her activities, in their effect on the child. Though general exception will be taken to radical views expressed in the first chapter, the author's ideals cannot be questioned, and the following chapters on education are of distinct value as the result of large experience in child training and of profound sympathy with child nature.

McMurry—How to study and teaching how to study.

A highly instructive and interesting analysis of the factors involved in true or logical study; with practical suggestions for training children to apply the logical method to textbook study. This is the best and most useful book on the subject, and will be valuable to teachers of all grades.

Fiction—

Grey—Heritage of the desert.

Waller—Flamsted quarries.

Juvenile—

Irwin—Secret of Old Thunder-Head.

Tarr & McMurry—New England.

Tarr & McMurry—Virginia.

A KNOCKERS' CONTEST.

Hey all ye knockers!!! I have just put on a "Knocking Contest" at T. C. Wood Hdw. Co.'s store.

Drop in there right away and try your hammer on some of my varnish. You'll find it takes something more than a blow from a hammer to make a white spot or cause my varnish to chip, crack or powder off from the wood.

Then after knocking my varnish go home and apply the same tere to your floors or piano.

CHI-NAM-EL.

Mr. and Mrs. Peter Doyle were host and hostess to a fine dinner, yesterday at the poor farm. This is not the first meal given by Mr. and Mrs. Doyle to the members of the county board and other guests. It has become an annual affair and all who attend these dinners agree that they are "the best". Mr. and Mrs. Doyle have had charge of the poor farm for three years and nothing but praise is ever heard for the way in which they take charge of things. Inmates and officials alike award them universal praise. We hope to see them retained at the head of the Institution another year.

Miss Winnie Joslin, a teacher in Park Falls schools, spent Thanksgiving with her parents.

"Never before has any occasion provided such imposing scenes as are shown by Mr. Howe" said the Philadelphia Record of the exclusive scene of the funeral which will be shown in the Opera House on Dec. 8. This, however, is but one feature of the new program which will carry the stay-at-home traveler from one part of the world to another in the twinkling of an eye.

TAKE CARE!

Remember that when your kidneys are affected, your life is in danger. M. Mayer, Rochester, N. Y., says: "My trouble started with a sharp shocking pain over my back which grew worse daily. I felt sluggish and tired, my kidney action was irregular and infrequent. I started using Foley Kidney Pills. Each dose seemed to put new life and strength into me, and now I am completely cured and feel better and stronger than for years." J. J. Reardon.

The Fountain Head of Life Is The Stomach

A man who has a weak and impaired stomach and who does not properly digest his food will soon find that his blood has become weak and impoverished, and that his whole body is improperly and insufficiently nourished.

DR. PIERCE'S GOLDEN MEDICAL DISCOVERY makes the stomach strong, promotes the flow of digestive juices, restores the lost appetite, makes assimilation perfect, invigorates the liver and purifies and enriches the blood. It is the great blood-maker, flesh-builder and restorative remedy. It makes men strong in body, active in mind and cool in judgment.

This "Discovery" is a pure, glyceric extract of American medical roots, absolutely free from alcohol and all injurious, habit-forming drugs. All its ingredients are printed on its wrapper. It has no relationship with secret nostrums. Its every ingredient is endorsed by the leaders in all the schools of medicine. Don't accept a secret nostrum as a substitute for this time-proven remedy of known composition. Ask your neighbors. They must know of many cures made by it during past 40 years, right in your own neighborhood. World's Dispensary Medical Association, Dr. R. V. Pierce, Pres., Buffalo, N. Y.

30 YEARS OF SUCCESS.

J. J. Reardon Offers a Remedy for
Catarrh. The Medicine Costs
Nothing If It Fails.

When a medicine effects a successful treatment in a very large majority of cases, and when we offer that medicine on our own personal guarantee that it will cost the user nothing if it does not completely relieve catarrh, it is only reasonable that people should believe us, or at least put our claim to a practical test when we take all the risk. These are facts which we want the people to substantiate. We want them to try Rexall Muc-Tone, a medicine prepared from a prescription of a physician with whom catarrh was a specialty, and who has a record of thirty years of enviable success to his credit.

We receive more good reports about Rexall Muc-Tone than we do of all other catarrh remedies sold in our store, and if more people only knew what a thoroughly dependable remedy Rexall Muc-Tone is, it would be the only catarrh remedy we would have any demand for.

Rexall Muc-Tone is quickly absorbed and by its therapeutic effect tends to disinfect and cleanse the entire mucous membrane tract, to destroy and remove the parasites which injure the membranous tissues, to soothe the irritation, and heal the soreness, stop the mucous discharge, build up strong, healthy tissue and relieve the blood and system of diseased matter. Its influence is toward stimulating the mucous cells, aiding digestion and improving nutrition until the whole body vibrates with healthy activity. In a comparatively short time it brings about a noticeable gain in weight, strength, good color and feeling of buoyancy.

We urge you to try Rexall Muc-Tone, beginning a treatment today. At any time you are not satisfied, simply come and tell us, and we will quickly return your money without question or quibble. We have Rexall Muc-Tone in two sizes, 50 cents and \$1.00. Remember you can obtain Rexall Remedies in Rhinelander only at our store, —The Rexall Store, J. J. Reardon.

SOO TO BUILD EXTENSION.

An officer from the head office of the Soo railroad was in the city this week, and in conversation with a representative of The News, he stated that there was absolutely no question but what the Soo railroad would build a road from Mellen southwest to connect with the Soo line running across the state into Minneapolis. This would give Ashland another direct line to Minneapolis by Mellen and with the Soo line from Mellen to Ironwood and with the Soo's Shore line to Marquette and Houghton, it would give the copper country people the first direct line they ever had with the Twin Cities and would undoubtedly prove to be a well paying piece of road. The Soo official referred to is in close touch with the head officers and knows what the plans of the company are. He says that they of course are carrying on a great deal of new road building but that this proposed road southwest of Mellen is a certainty and will be built without any question.—Ashland News.

THE WEARY WAY.

Daily Becoming Less Wearisome to
Many in Rhinelander.

With a back that aches all day. With rest disturbed at night. Annoying urinary disorders. 'Tis a weary way, indeed. Doan's Kidney Pills drive weariness away.

Are endorsed by Rhinelander citizens.

Mrs. M. E. Perkins, 23 Mercer St., Rhinelander, Wis., says: "I take pleasure in confirming the statement I gave for publication in 1917, recommending Doan's Kidney Pills. Backache caused me a great deal of suffering, and I also had pains through my loins. I sometimes felt dry and nervous and mornings I awoke feeling all tired out. After taking various medicines without being benefited, I learned of Doan's Kidney Pills and procured a box at Reardon's Drug Store. They gave me immediate relief and I continued their use until restored to good health."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

NEW POSTAL RULINGS.

The new post office ruling, whereby a person sending registered mail must designate whether or not they desire a receipt from the address, has gone into effect. The past custom of the department provided for such a receipt in all cases, whether or not the sender desired such a receipt. The department, in its endeavor to cut down post office expenses adopted the new ruling, which will materially lessen the weight of the mails. It is believed, as many persons will not ask for a return receipt when a letter or package is registered.

Under the present regulations registered mail, which in the past could not be delivered to any person except the one sent to without a written order from that person, may be delivered to any responsible person who is in the habit of receiving mail for the one the registered matter is addressed to.

A SIMPLE SAFEGUARD FOR MOTHERS.

Mrs. D. Gilkeson, 326, Ingles Ave., Youngstown, Ohio, gained wisdom by experience. "My little girl had a severe cold and coughed almost continuously. My sister recommended Foley's Honey and Tar. The first dose I gave her relieved the inflammation in her throat and after using only one bottle her throat and lungs were entirely free from inflammation. Since then I always keep a bottle of Foley's Honey and Tar in the house. Accept no substitutes."

Sickly Children

Letters from Mothers.

"I wish I could induce every mother, who has a delicate, sickly child, to try your delicious Cod Liver and Iron Tonic VINOL. It restored our little daughter to health and strength after everything else had failed."—Mrs. C. W. Strump, Canton, Ohio.

Mrs. F. P. Skonnard, of Minneapolis, Minn., writes, "I want to recommend VINOL to every mother who has a weak or sickly child. My little boy was sickly, pale, and had no appetite for two years. I tried different medicines and doctors without benefit, but thanks to VINOL, he is a well and healthy boy to-day."

C. Allen, of New Bedford, Mass., writes, "My two puny children gained rapidly in flesh and strength in a very short time after taking VINOL."

We positively know VINOL will build up little ones and make them healthy, strong and robust. Try one bottle, and if you are not satisfied, we will return your money.

If you find any substance in your baking injurious to health made from baking powder in this can there is

\$1000
In it for you

Calumet has been backed for years by an offer of \$1,000 for any substance injurious to health found in the baking prepared with it.

Does not this and the fact that it complies with all pure food laws, both State and National, prove that Calumet is absolutely pure?

With the purity question settled—then Calumet is undoubtedly the best Baking Powder. It contains more leavening power; it is more uniform—every can is the same. It assures better results—and is moderate in price.

CAPITAL AND SURPLUS OVER \$800,000.

1. This Company is essentially a Wisconsin institution. Of its 2,200 stockholders more than half are residents of this state and men of responsibility and standing in their communities.

2. Over \$700,000 of New Insurance has already been placed by the Agency Force.

3. The Company has been doing business since April 16th last, when it received its license from the state and the certificate of the Commissioner of Insurance that it had "fully complied with all the requirements of law."

4. Life Insurance should be taken only FOR PROTECTION AND SAVING. This Company sells modern insurance, a plain definite contract, at a certain price. The insured knows exactly what protection he buys when he pays for it. There is no element of speculation. The price of insurance is the lowest possible, consistent with honest management and sound business policy.

NO GOOD INSURANCE IS CHEAPER OR BETTER.

MOVING PICTURES SHOW, PET DOG

Lyman Howe Exhibits Famous Lap Dog of Late King Edward the Seventh.

"Caesar," the favorite dog of the late King Edward, does not permit the members of the English Court to forget his former master.

The terrier refuses to accept anyone into his affections to take the place of the dead monarch, and spends much of his time in the parts of the palace where the former King played with him.

"Caesar" was an impressive part of the funeral procession when the body of King Edward was carried to its last resting place. The dog followed the gun carriage, seeming to know what was going on.

He appears in the official moving picture records of the obsequies which Lyman H. Howe is presenting in America through courtesy of the British Government.

WISCONSIN SCHOOLS TO HELP THE PEACE MOVEMENT.

Steps were taken at the recent meeting of the Wisconsin Teachers' Association to organize a Wisconsin branch of the American School Peace League.

The impetus to this movement was given by Dr. P. P. Claxton of the University of Tennessee in his eloquent and forceful presentation of the evils and tremendous cost of war.

The following were appointed members of a committee to make recommendations to the association at its next annual meeting: President Albert Sallisbury, Whitewater State Normal school; G. F. Cary, State Superintendent of Public Instruction; Emma J. Gardner, Milwaukee; Superintendent F. A. Harrison, Rhinelander; Principal D. H. Schuler, Milwaukee.

Her Solace.

"There is much wrong and bitterness in the world. It makes me melancholy. A man hardly knows what to do."

"A girl is never at a loss, however. When she feels that way she puts some fresh powder on her nose."
